Dear Cari,

We cannot thank you enough for sharing your story with our group. Our membership has not stopped talking about how incredible your presentation was. Thank you for sharing your pain and the horrible realities of drinking and driving with us. It has sparked conversations between families and friends, parents and kids, sisters and brothers, etc., etc.. I know that you saved lives in that room last week, we are forever grateful.

Your message is strong and you are a very brave messenger.

Thank you very much.

Warmly,

Heidi Coupland
